Panoramic Plot for Sale Directly from the Owner in Bocsár-dűlő!

A truly exceptional opportunity in Bocsár-dűlő: right on the boundary of the residential zone, this 2,654 m² plot classified as orchard land is offered for sale. The property currently features a well-maintained almond grove, giving the area a cultivated and peaceful atmosphere.

The plot is part of a 5,774 m² undivided shared property with a total of three owners, where the offered parcel represents the majority share. The location is remarkable: from the plot, a stunning, wide panorama of Lake Balaton with a view of Tihany opens up, while the paved road running along the lower end of the land already belongs to the inner residential area—an exceptionally valuable feature in terms of future development potential.

Whether you are seeking a long-term investment or searching for a secure and value-stable property for personal use, this land offers outstanding potential. Opportunities with such attributes are rare in this area.

If this property has caught your interest, please feel free to get in touch!
